COCOM Doc. No. 3522

69(1)

Date: May 11, 1959

COORDINATING COMMITTEE

MEMORANDUM FROM THE UNITED STATES DELEGATION

Concerning

EXPORT OF BALL BEARINGS TO POLAND

Reference: COCOM Docs. 3385, 3429, 3434

In response to the request made by the Italian Delegate on February 24, 1959, the United States Delegation provided information explaining why certain bearings to be exported by the United States to Poland, were considered by the United States to be embargoed by Item 1601.

At the suggestion of the Italian Delegate, the embargo status of the bearings in question was subsequently re-studied by the United States authorities. As a result of this further examination, the United States concludes that the bearings are covered by Item 4601 rather than 1601.
